## Richard Spinney

12/10/2020

Started with a 2 X 6 piece.

Added the big wheels from the club leftovers.

Carved out the tractor seat.

Tractor for Great grandson.

## Jeffery Fritz

12/29/2020

Craftsman Sofa Table - Greene and Greene style. Made out of mahogany and with ebony plugs. Still need to do final sanding and finish with several coats of garnet shellac. Mahogany is such a pleasure to work with. Plans from American Woodworker - July 2004

4

## Ronnie Webb

12/29/2020

I finished the maple mission-style bed based on fine woodworking by Matt Berger. I have the DVD.

I had help in glue up from Richard Hicks and Mark Underwood.

Thanks for the help it was a complex glue up with so many mortis and tenon to keep aligned

## Richard Hicks

12/30/2020

Getting a head start on the toy project for 2021.

Sixteen train sets including locomotive, rock car and log car with logs.

They will be bagged as a three piece set and they 'hook together' so they make a train the child can play with.
