Our Next Meeting will be Aug 27th

July 23rd Meeting

We held the July meeting at our regular meeting location, 1685 Ashley in Beaumont. Business items included:

- Waid Gauthier - about \$2,438.93
- Richard Hicks - 50 members
- Web Site - Rob Emanuel reports that our website is repaired and up to date
- Library - The Fine Woodworking magazine collection DVD is on order. The club may add the Shop Notes DVD to the library.

Next Meeting

Our next meeting will be on Monday, August 27th, 2012 at our regular meeting facility, 1685 Ashley in Beaumont. Richard Hicks will present a program on making small boxes.

Directions: Take the MLK exit on IH-10, go South on MLK and then turn West on Ashley. Go two blocks and you're there. The business meeting will start at 6:30 and the regular meeting starts at 7:00.

Show & Tell

Steve Brady made a walking cane using white oak and the metal 'horn' from a old mule harness.

Dale Clark made some 3" and 5" crown molding using his set of Freud router bits.

John Bourgeois is making his mother a motorized potter's wheel that utilizes a old tread mill motor and controller.

Larry and Mack Trahan made a wagon using some pecan from a tree Larry's grand-father planted.

Rob Emanuel recently bought a soft profiling sander to form his intarsia pieces.

Larry Sonnier, one of our new members, turned this bowl from a piece of flamed box elder.

Tommy Ellis is the proud new owner of a new Shop Fox hybrid table saw. He's replacing an old Craftsman saw.

Kenneth Barry built a 'knock down' desk from pieces of $\frac{1}{2}$ " Russian birch plywood using his CNC machine.

Waid Gauthier brought a 'show & ask' from a friend that wanted a piece made to press pie dough into a pie pan.

Earl Rutherford won the door prize, \$25 since he didn't have a show & tell this month. It was also Earl's birthday. Happy Birthday Earl!

Program

Jerry Shivers presented the fifth part of our

five part program series on making furniture by reviewing the construction details and assembling the

project desk.

The desk is a single pedestal style with raised panels, a writing tray, a dovetailed drawer, and a cabinet section with a raised panel door.

The desk was constructed using 'paint grade' maple. All of the surfaces were finished with multiple coats of Deft brand lacquer, hand sanded between coats.

The pedestal and end panel are connected by a center section that adds structural integrity and keeps the end panel from racking when the desk is moved. The desktop is positioned, and held in place, with dowels so the desk can be quickly assembled or disassembled.

Thanks to Jerry Shivers, and John and Rebecca Phelps for all their efforts in preparing and presenting this series of programs. As a reminder, we video taped the meeting and work sessions and the DVDs are available in our club library.

five part program series on making furniture by reviewing the construction details and assembling the

project desk.

The desk is a single pedestal style with raised panels, a writing tray, a dovetailed drawer, and a cabinet section with a raised panel door.

The desk was constructed using 'paint grade' maple. All of the surfaces were finished with multiple coats of Deft brand lacquer, hand sanded between coats.

The pedestal and end panel are connected by a center section that adds structural integrity and keeps the end panel from racking when the desk is moved. The desktop is positioned, and held in place, with dowels so the desk can be quickly assembled or disassembled.

Thanks to Jerry Shivers, and John and Rebecca Phelps for all their efforts in preparing and presenting this series of programs. As a reminder, we video taped the meeting and work sessions and the DVDs are available in our club library.

The DoveTale

July 2012

Woodworkers of SouthEast Texas

Officers:

President Rob Emanuel, 729-9315
 President elect Dean Partridge, 722-7647
 Secretary Richard Hicks, 553-6157
 Treasurer Waid Gauthier, 735-8392

Committees:

Newsletter Richard Hicks, 553-6157
 Librarian Larry Trahan, 866-3075
 Purchases Jerry Shivers, 794-2274
 Membership Richard Hicks, 553-6157
 Web Master Rob Emanuel, 729-9315
 Programs Richard Hicks, 553-6157
 Toy Project Dean Partridge, 722-7647

Our Next Meeting will be Aug 27th

July 23rd Meeting

We held the July meeting at our regular meeting location, 1685 Ashley in Beaumont. Business items included:

- Waid Gauthier - about \$2,438.93
- Richard Hicks - 50 members
- Web Site - Rob Emanuel reports that our website is repaired and up to date
- Library - The Fine Woodworking magazine collection DVD is on order. The club may add the Shop Notes DVD to the library.

Next Meeting

Our next meeting will be on Monday, August 27th, 2012 at our regular meeting facility, 1685 Ashley in Beaumont. Richard Hicks will present a program on making small boxes.

Directions: Take the MLK exit on IH-10, go South on MLK and then turn West on Ashley. Go two blocks and you're there. The business meeting will start at 6:30 and the regular meeting starts at 7:00.

Show & Tell

Steve Brady made a walking cane using white oak and the metal 'horn' from a old mule harness.

Dale Clark made some 3" and 5" crown molding using his set of Freud router bits.

John Bourgeois is making his mother a motorized potter's wheel that utilizes a old tread mill motor and controller.

Larry and Mack Trahan made a wagon using some pecan from a tree Larry's grand-father planted.

Rob Emanuel recently bought a soft profiling sander to form his intarsia pieces.

Larry Sonnier, one of our new members, turned this bowl from a piece of flamed box elder.

Tommy Ellis is the proud new owner of a new Shop Fox hybrid table saw. He's replacing an old Craftsman saw.

Kenneth Barry built a 'knock down' desk from pieces of $\frac{1}{2}$ " Russian birch plywood using his CNC machine.

Waid Gauthier brought a 'show & ask' from a friend that wanted a piece made to press pie dough into a pie pan.

Earl Rutherford won the door prize, \$25 since he didn't have a show & tell this month. It was also Earl's birthday. Happy Birthday Earl!

Program

Jerry Shivers presented the fifth part of our

five part program series on making furniture by reviewing the construction details and assembling the

project desk.
