

## Bibliography of Video Sources of Information on Woodworking with Hand Tools

These sources are either YouTube videos or they are blogs. For the YouTube videos, go to [www.youtube.com](http://www.youtube.com) and in the search box, type the name you want to find. As soon as it recognizes your entry, it will offer a list of choices. Generally, you would choose an entry that contains “channel” or “woodworking” to filter down to just the clips that address a woodworking project. [Some of these guys have all kinds of offerings on You Tube!] If you want to scan all entries associated with a name, then don’t add a qualifying term, just enter the term John has listed in this list. If you get to a screen that contains a video play box with a row of tabs across the play box, left click on the tab labeled “Video” to eliminate for the topics covered that have nothing to do with woodworking.

*Please note: in the places where it looks like I forgot to press the space bar, it means you should not use the space bar either. Type just as entered on the list without the spaces.*
